

## Brick Information

This is a once in a lifetime opportunity! The Boys and Girls basketball teams, Italian American Club, Habitat for Humanity, and the Varsity Club are creating a new sports entrance in the rear of the school. Our goal is to provide all athletic spectators with a welcoming design that was made possible in part by members of the community. The entrance will be located near the side parking lot and will lead directly to the school gym.

Great Graduation Gift!

# Your Donation Counts!

Together with Habitat for Humanity, The Boys' and Girls' Basketball Association, the Italian- American Club, and the Varsity Club, you can make dreams possible. YOUR donation will provide us with the ability to create a beautiful main gym entrance for all athletic functions. Also, a Morris County family will have the opportunity to move into their new home with your help. By purchasing a brick, you are not only leaving your mark on the school, but helping the entire community.
