

Thank you to the Troy Hills PTA for providing our students with several wonderful Cultural Arts assembly programs each year. We are looking forward to our next Cultural Arts assembly program, which our students will attend on Friday January 20th. The program is the “Magical World of Folktales.” The artist presenting this assembly is Alicia Washington, a professional actress who has worked in television, film and as a stage actress, as well. She will present a performance of a “play” in which characters within the story learn about different cultures, experience the universality of morals, and discover problem-solving methods. Students will experience the dynamic world of the “minds eye” in Magical World Folktales. We look forward to this upcoming assembly program.
