June, 2011

Dear Parent/Guardian:

Students in a variety of designated courses are required to complete a summer reading assignment. To view the courses that require summer reading and the specific titles for each course, please see the course list on page 2. The titles were selected based on the curriculum for each of these courses. Some titles present mature subject matter and have been so identified in the annotation. We encourage you to read these selections along with your youngster or prior to your child's reading the book. If you have any questions or concerns about the summer reading, please contact one of the administrators listed below.

Students may choose to borrow the book at the public library or to purchase the book at a local bookstore. If students are unable to locate the required book, they should call the principal who will assist them in acquiring it.

When students return to school in September, they will be asked to participate in activities based on the summer reading. One of the most important goals of the summer reading program is to engage students in reading that will prepare them for upcoming curriculum in the new school year. To this end, students should read carefully and reflect on what they are reading so that they are well positioned to reap the most benefit from their educational program.

Dr. Connie Donvito, Director of Curriculum & Instruction
